Maj. H. C. Knickerbocker Jr. of Dallas said he has already written a letter to Sen John Tower in Washington, calling the training program, "a treasonous situation."

The ANG pilot said the saw three Yugoslavia pilots on the light line along with traines rom U.S. ally nations in the Air orce's F-86L Interceptor course at Perrin.

Knickerbocker said the training of the Yugoslavs at an American Air Force base may be glibly explained away by the State Department as "aid to neutral countries."

But such an explanation, he declared, would be simply too much for me to swallow."

Actually, the U.S. isn't doing anything today that it has not been doing according to its foreign policy for a long time. But the fact that the story had to leak out bas created a furor.

THE TIME has come to be realistic about our national defense.

It's time to look out for the interests of the United States of America.

That interest cannot be served best by training our potential enemies.

Pilots from Communist Yugoslavia are being frained now at Perrin Air Force Base at Sherman. 

The Department of Defense, confirming the report that the Yugoslav pilots are being trained in this country, offers the explanation that Yugoslavia is paying for their training. It says the Yugoslav government recently purchased some 130 F86D airoraft from this country, and that lin accordance with normal defense policy, support assistance in the form of training and spare parts was included."

## American People Raise Voices In Protest at Red Pilot Training

THE INDIGNATION that greeted disclosure that pilots from Communist Yugoslavia are being trained at Pernin Air Force Base is increasing.

The storm of protest which broke at Dallas was helped little by the statement that such training is a matter of national policy and is in connection with the sale of "obsolescent" planes to the Yugoslav government.

To a great many persons it does not make, sense to sell planes—obsolescent or otherwise—for about three cents on the dollar.

To a great many also it does not make sense to train pilots for any Confimunist nation regardless of whether it is under the complete domination of Soviet Russia or claims it is independent. It is enough that such a country is Communist, and that communism is opposed to the free enterprise system.

The indignation meetings are aimed at bringing about a change in the national policy:

These meetings are being held in Dallas

But the American people—at Dallas and elsewhere—are trying to make their voices heard.

They dislike learning about a policy they believe is not in the best interest of the United States and then being told that it is nothing new—that two administrations have approved it and that it has the approval of both State and Defense departments.

fense departments.

Regardless of where the policy started or what officials approve it in the final analysis it affects the future of the people of the United States.

It's time to bring national policy out

Our foreign policy and our defense policy should be based on the interests of the people of the United States of America. "The Dallas Times Herald"

Honorable John Tower, Senator United States Senate Senate Office Building Washington, D. C. ALL INFORMATION CONTINUED AND BUT BUT INFORMATION CONTINUED AND BUT BUT INFORMATION CONTINUED

Dear Semator Tower:

As an Air Nationl Guard Pilot, I had occasion to visit PERRIN Air Force Base, Sherman, Texas seeking some ground training equipment for our 136th Fighter Group (AD) in Dallas. . . . equipment that will soon by declared excess to air Force needs.

I found the equipment I sought, but I found something else. . . far more important: COMMUNIST pilots are receiving training in the USAF = F-86L Interceptor course at PERRIN AIR FORCE BASE!

YUGOSLAV Captains Rizman, Lukic, and Cunzaric were on the flight line along with trainees from our ally nations. West Germans, Free Chinese, etc., receiving briefing from American Instructors. I was told that a fourth Communist pilot is also in training but I did not see him or takk with him during my visit.

When asked how they feel about training COMMUNIST pilots, the American instructors usually shrugged, grinned and suggested that it is not best to question such things.

GERMAN pilots in training at PERRIN are less reticent. They say "THESE COMMUNISTS ARE THE PILOTS WE ARE GOING TO HAVE TO FIGHT". "WHY ARE YOU TRAINING THEM ALONGSIDE, YOUR ALLIES?" I couldn't give a reasonable answer to this question. Can you, Senator?

The training of YUGOSLAVS at an American Air Force Base may be glibly explained away by our State Department or Defense Department as "AID to 'Neutral' Countries" but such an explanation would be simply too much for me to swallow.

COMMUNISTS. . ALL Communists, regardless of nationality. ...are ENEMIES OF AMERICA. Training America's enemies constitutes giving aid and comfort to them. Giving aid and comfort to them. Giving aid and comfort to America's enemies is defined in Article 3, Sec. 3 of the CONSTITUTION as Treason! Anyway you add it up, you reach the same result.

It may be said that those responsible for this act sincerely believed themselves to be acting in the best interests of Ameraica. Benedict Arnold's biography reveals that up to the moment he defected to the British, was one of America's staunchest patriots. Furthermore, Arnold felt that by achieving a quick end of the bloodshed and awful suffering that characterized what he believed to be a lost cause, he would serve his fellow Ameraicans best.

Benedict Arnold was sincere in his belief but he will be remembered forever, (I Hope) as the symbol of American treason. Modern traitors, whoever they may be, however high their offices and however sincere they may be. . . ARE STILL TRAITORS! No amount of sincerity can change that. Their acts must not be excused and they must not go unpunished.

In view of the unprecedented reprimand of a patriot of the magnitude of General Walker it seems likely that revelation of these facts will do little to further my individual progress as an Officer in the Air National Guard. It is obvious that today the multiple criminality of Communism is honored above GOD-Fearing American patariotism. Nevertheless, I for one, officially Defense Department policy notwithstanding, can serve only ONE master. I remain an unreconstructed, unliberalized, UnSocialized, UNCOMMUNIZED AMERICAN.

Rest assured I will support any action you deem appropriate to rectify the treasonous situation herein described.

Very truly yours,

H. C. Knickerbocker, Jr. (Signed)

Dear Mr. Hoover,

No doubt by this time you have learned that 8 Communist Yugoslavs are receiving training at the Perrin Air Force Base in the Sherman-Dennison area here in Texas.

The officials in Washington want to squash the people's protests about this thing.

\* They want us to believe that Tito's men are not "friends" of Russia. So what?

A blithering idiot, these days, can tell you that, "A Communist is a Communist," no matter what country he's from.

Do the people in the Capital really expect us to accept this poor, pale, weak explanation?

\* It is like cutting a hunk of cake from a huge chocolate cake. Then, to a friend who does not like chocolate cake you say. "Here, take this piece I have cut off; it is not chocolate any more since it is free of the cake."

That in its self is sheer Communist double-talk. Mr. Hoover, someone is responsible for this betrayal of the American people. Please Help Us!

Yours for God & Country

INFORMATION CONCERNING

Re Dallas tel to Bureau 10/29/61.

advised he had just been in telephonic contact with the Bureau and had been advised he would receive a letter this week advising him whether he might have an appointment with the Director. MC GEHEE stated he wished to talk to the Director only and did not have any information for the Dallas Office at this time.

The following background on MC GEHEE has been obtained from public sources and discreet inquiry: MC GEHEE is a white male, age 32, a Korean War veteran, formerly a pilot for Pioneer Airlines and Continental Airlines in Dallas. He graduated in 1960 from the University of Dallas and is presently attending night law school at Southern Methodist University, second year. He is also treasurer of the Spera Corporation, which operates an auto repair garage at 7110 Webster, Dallas, Texas. He resides at Dallas, and is married. MC GEHEE was born and raised in Dallas.

Bureau's attention is directed to news clippings forwarded to the Bureau under caption "YUGOSLAV PILOTS TRAINING AT PERRIN AFB, TEXAS, IS-YU," in which MC GEHEE is identified as Chairman of the NATIONAL INDIGNATION CONVENTION which was formed for the protesting of YUGOSLAV pilots in the U.S. The Bureau's attention is also directed to the clipping in which MC GEHEE publicly condemned U.S. Senator JOHN TOWER and U.S. Representative BRUCE ALGER when they failed to grant telephone interviews for the NATIONAL INDIGNATION CONVENTION. MC GEHEE later publicly apologized for this condemnation. It should be noted that MC GEHEE is a self-admitted member of the JOHN BIRCH SOCIETY. Serialize

We of the American Legion here and the V F W togather are contemplating calling a meeting in Denton. Before we do I would like for the F B I to give me their opinion of these meetings.

There has been some big name men interested in the meetings I have been hearing about.

I personally think they are doing considerable good in arousing the people against comunism. An early reply would be appreciated.

This is to acknowledge the receipt of your letter dated October 30, 1961, and the interest which prompted you to write us.

Although I would like to be of service, the FBI is an investigative agency of the Federal Government and does not make evaluations or draw conclusions as to the character or integrity of any organization, publication or individual. I regret that I am unable to help you and hope you will not infer in this connection either that we do or do not have data in our files relating to the organization about which you inquired.

It is always pleasing to receive comments from citizens who demonstrate awareness of the problems facing this country and a sincere desire to prepare themselves to meet the communist challenge to our freedom.

The Communist Party, USA, has tried to infiltrate every part of our society but it has not been successful because of our internal security program; the investigations, arrests and prosecutions of a number of party functionaries; and the rising tide of public opposition to this evil movement. All this has been accomplished in an orderly constitutional fashion and is something of which every American should be proud. We must continue to be alert to these subversive efforts that infiltrate.

I wish to emphasize most strongly that communism is a grave threat to the continued existence of the United States; however, it is doubly imperative that we remain calm, rational and thoroughly accurate in what we say and do in opposing it. This is no time for rumors, unfounded suspicion, gossip and the hurling of false accusations. We must not needlessly divide ourselves.

I am sure you will agree with me on this.

Very truly yours,

November 7, 1961

Federal Bureau of Investigation 2014 Commerce Street Dallas, Texas

Gentlemen:

This will confirm a telephone conversation I had with your office on October 30, 1961, regarding a certain petition I signed on October 18 or 19. This petition is being circulated here in Dallas regarding the banning of weapons to communists, ousting all communists in the U.S., and finding out who in the State Department is responsible for the training of communists here in this country.

The above is the general picture of the petition. At the time I signed this petition, I was very busy working and almost everybody was signing it, as we were against communism. The reason for my wanting to go on record with you is that after I signed this petition I questioned the legality of it. If congress passed these things in the above paragraph, then it was a legal act on their part, for I am not against the United States Government. In other words, if I had it to do over again, I would not sign this petition for the reasons listed below:

- 1. Question the legality of this petition, and its purpose:
- 2. I don't know about this so-called NIC organization;
- 3. I am not in an uproar against the U.S. Government;
- 4. It may be a trick to get people stirred up; thus dividing us.

Enclosed is a copy of said petition, only that it is almost the same as the one I signed. The contents amount to about the same thing.

I am a Christian and an American, and don't ever want to give a reason for doubting my patriotism to the United States of America.

Mrs. Mary D. Cain of Sum- responsible for such programs mit, Miss., a weekly newspaper publisher, will speak during a National Indignation Convention meeting scheduled in Will Rog-ers Memorial Auditorium at 7:30

p. m. Nov. 18 and 19.
She will speak Nov. 18.
The NIC is protesting training of Communist pilots in Texas and the sale of war materiel to

Communist nations.

Jack Armstrong, Parker County ranchman, is chairman of the Fort Worth meetings. He attended all the sessions of a Dallas convention recently.

Armstrong said the convention would vote on three resolutions:

1. Send the Yugoslav pilots and maintenance men home from Perrin Air Force Base, where the U. S. Air Force is training them to fly and main-tain U. S.-built fighter planes which have been sold to Yugoslavia.

2. Cancel all contracts of sale of war materiel to Yugoslavia and other Communist countries, and cancel all training con-

Other members of the local NIC committee, Armstrong said, include Mrs. Owen E. Wood of 5023 Calmont; C. Lee Morris, office manager of Fort Worth and Denyer Railway; Wiley G. Clark-sony Jr., owner of an engraving firm at 3409 W. 7th, and lawyers and doctors who did not want to reveal their names because of professional ethics.

Mrs .Wood, a native of Fort Worth, said she was "sick and tired of coddling the enemy our detriment."

Clarkson said . many

Worth residents attended the Dallas sessions and that now more than 30 conventions have been scheduled in 20 states.

The NIC was born in Dallas after Maj Harry Knickerbocker uncovered the training program at Perrin AFB. The convention . is scheduled to reconvene in Dallas Nov. 22.

Dear Fellow American:

If we should lose in our struggle against Communism, what role do you think you and your family would be allowed to play in the "New Order".

If you don't like to think about it, then please join with other Patriotic and Concerned Americans and THINK ABOUT THIS:

- In the last twelve years our government has delivered over \$700,000,000 worth of tanks, guns, planes, rockets, and ammunition to our Communistic enemy Yugoslavia.
- B. At this moment, Communist engineers are being trained at our Oak Ridge Nuclear Installation (you would be barred from this project for reasons of security).
- C. At this very moment Communist pilots, stationed at Perrin Air Force Base may be flying over the heads of your wives and children, selecting the best spots on which to drop their bombs once the shooting starts.

THINK ABOUT THESE THINGS! Consider them well, and if you wish to take part in a movement to put an end to such madness, then join with other Patriotic and Concerned Americans and DO THIS:

Attend the Fort Worth National Indignation Convention in The Fort Worth Auditorium on Nov. 18th and 19th at 7:30 p.m.

Support the following resolutions adopted by the N.I.C. last month in Dallas:

- Remove from our land any Communist Military Personnel being trained
- Cancel all contracts involving the sale or transfer of war material to the Communists.
- Determine who in our government is responsible for these contracts and remove them from office.

If you can find time to participate in this Convention, please contact

### NATIONAL INDIGNATION CONVENTION INFORMATION CONCERNING

MO T-1, who has furnished reliable information in the past, advised on January 16, 1962 that at the January 15, 1962 meeting of the National States Rights Party (NSRP) chapter at Montgomery, Alabama, it was urged that NSRP members attend the gathering at City Auditorium, Montgomery, Alabama, on the night of January 20, 1962 to hear the broadcast of Major General EDWIN A. WALKER's address which would be made at Dallas, Texas. A characterization of the NSRP is appended hereto.

The January 21, 1962 issue of the Montgomery Advertiser - Alabama Journal, Sunday newspaper published at Montgomery, Alabama, carries an article on Page One captioned "Crowd in Auditorium Hears WALKER's Attack On Authored by ROD HARRIS of the Advertiser staff, this article relates that about 1,000 persons gathered at City Auditorium on January 20, 1962 to hear General WALKER's address in which he attacked Communism and endorsed what he called "an upswing of conservatism" in the United States. The simultaneous gatherings to hear WALKER's speech from Dallas was called a "National Indignation Convention", and this article states that approximately 200 gatherings similar to the one in Montgomery were held to hear this speech. The article states that WALKER charged the "total leadership" of the United States with allowing the spread of Communism by "appeasement" over the past twenty years. He also urged that either the Soviet Union and its satellites be expelled from the United Nations, or that the United States get out. WALKER spoke against the United Nations, the concept of "one-worldism", and criticized the training of "enemy soldiers" by the United States.

ROD HARRIS' article also relates that in a "warm-up" session before the WALKER speech, FRED WHITE of Montgomery, a sponsor of the "indignation convention" spoke in detail

about military aid given to Yugoslavia by the United States, and circulated a petition against training Yugoslav airmen in the United States. Another speaker, Rev. Dr. ROBERT STRONG, sharply attacked clerical leadership in the United States for its "drift toward socialism". He cited the National Council of Churches for resolving to favor admission of Red China into the United Nations.

This article also states that after the rally copies of "Common Sense" were passed out by unidentified men, contrary to the wishes of "convention officials" who tried to get the police to prevent this publication from being distributed at the convention. The police refused to intervene, according to the article.

MO T-2, who has furnished reliable information in the past, advised on January 22, 1962 that the men passing out the copies of "Common Sense" were members of United Klans of America, Inc., Knights of the Ku Klux Klan at Montgomery. This informant identified "Common Sense" as an anti-Communist and anti-Semetic publication, published by CONDE McGINLEY in New Jersey.

A characterization of United Klans of America, Inc., KKKK, is appended hereto.

#### NATIONAL STATES RIGHTS PARTY (NSRP)

On November 26, 1957, a source advised that the United White Party (UWP) was organized at a convention held in Knoxville, Tennessee, on November 10, 1957. An article in the November 26, 1957, issue of the "Greenville Piedmont", a newspaper of Greenville, South Carolina, reported that a "Ku Klux Klan spokesman of Greenville reported the recent formation of a new political party to be known as the United White Party". According to the article, the party was formed at a recently held meeting in Knoxville, Tennessee, at which many Klansmen were represented. The UWP was reported as being opposed to all "race mixing organizations and individuals".

The July 1958, issue of "The Thunderbolt", self-described as the "official Racial Nationalist Organ of the National States Rights Party" (NSRP) reported that rank and file "States Righters" had merged with the UWP under "the banner of the National States Rights Party" with national offices at Post Office Box 261, Jeffersonville, Indiana.

In November 1958, a source advised that the NSRP is composed of past members of the Ku Klux Klan and notorious anti-Semites.

Issue #19, dated June 1960, of "The Thunderbolt" announced the address of the headquarters of the NSRP had been changed from Jeffersonville, Indiana, to Post Office Box 783, Birmingham, Alabama.

The March 1959, issue of the Anti-Defamation League Bulletin contained an article by JEROME BAKST entitled "Angry Young Men of Hate". Regarding EDWARD R. FIELDS, the article stated, "FIELDS, 26 years old and a Louisville chiropractor, is a key figure in the National States Rights Party and co-ordinator of all its activities, contacts and liaison with leaders of other hate groups. He apparently started Jew-baiting in his teens, aided STONER in the Christian Anti-Jewish Party, and got involved in newspaper

notoriety while attending chiropractory school in Davenport, Iowa. There, early in 1954, according to newspaper reports, he pasted anti-Jewish stickers on store windows during Brotherhood Week."

A source advised in May 1961, that participated in the disturbance at the Trailways Bus Station, Birmingham, on May 14, 1961, involving the "Freedom Riders" and, in fact, caused the fighting there.

The Ku Klux Klan has been designated by the Attorney General of the United States pursuant to Executive Order 10450.

# UNITED KLANS OF AMERICA, INCORPORATED KNIGHTS OF THE KU KLUX KLAN (UNITED KLANS)

Records of Superior Court of Fulton County, Georgia, reflect that this Klan organization was granted a corporate charter on February 21, 1961, at Atlanta, Georgia, under the name United Klans, Knights of the Ku Klux Klan of America, Inc.

A source advised on February 27, 1961, that United Klans was formed as a result of a split in U. S. Klans, Knights of the Ku Klux Klan, Inc. According to the source, the split resulted from a leadership dispute and United Klans has the same aims and objectives as the parent group. These are the promotion of Americanism, white supremacy and segregation of the races.

The first source and a second source advised in July, 1961, that United Klans, Knights of the Ku Klux Klan of America, Inc., merged with Alabama Knights, Knights of the Ku Klux Klan. The merged organization established headquarters in Suite 401, The Alston Building, Tuscaloosa, Alabama. The organization is directed by ROBERT SHELTON, Imperial Wizard, and is the dominant Klan group in the South with units in several southern states.

Second source advised that at a meeting at Prattville, Alabama on October 22, 1961, the U. S. Klans, Knights of the Ku Klux Klan merged with the United Klans of America, Inc., Knights of the Ku Klux Klan.

Re Seattle letter to Bureau, 3/2/62.

For the information of the Seattle Office, the National Indignation Convention (NIC) was formed in Dallas, Texas, on 10/14/61 to protest the sale of 135 Saber Jet Fighters to Yugoslavia, and the training of Yugoslav Airmen at Texas air bases. It should be noted that Yugoslav Airmen have been training at Texas bases for over nine years. The organizer and president of this group is FRANK B. McGEHEE, a self-admitted member of the John Birch Society. Another self-admitted member of the John Birch Society in Dallas advised that the prime mover behind the NIC is the John Birch Society, and that they had formed telephone committees to help get out a turn out at NIC meetings and have circulated petitions in the Dallas area in connection with this organization. On 11/18/61 a Fort Worth branch of the NIC was formed and JACK ARMSTRONG, a 38-year old cattle rancher from Weatherford, Texas, was made president of that group.

The NIC held public rallies in Dallas through 11/24/61, claiming about 25 states and 80 cities were represented at various rallies. Delegates of these NIC rallies voted to keep their ire officially alive by staging a session in Washington, D.C.

The following information concerning JOHN THOMAS MASEN is derived from case captioned "JOHN THOMAS MASEN - IS - CUBA; NEUTRALITY MATTERS" Bufile 105-125147, Dallas file 105-1686, and is set forth here inasmuch as unsubstantiated reference has been made that MASEN may be a member, a sympathizer, or possibly a vendor of supply to the "Minutemen".

On the morning of November 22, 1963,

ATTU, Dallas, Texas, advised that JOHN THOMAS MASEN was arrested on November 20, 1963 for violation of the Federal Firearms Act, in that he was selling parts which converted b7c M-1 semi-automatic carbines into M-2 automatic carbines.

further advised that he has determined that MASEN is apparently a member of the "Minutemen" organization, or is strongly sympathetic to this group, and is possibly selling firearms to members of the "Minutemen", or a similar type organization.

On 12/4/63, Patrolman Badge No Irving Police Department, Irving, Texas, among other things, mentioned that as a result of his contacts with MASEN, he had determined that MASEN has been in touch with the following organizations: "Minutemen", John Birch Society and Cuban counter-revolutionary agents.

JOHN THOMAS MASEN has been described as a white male, U. S. citizen, approximately 23 years of age, 5° 5" tall, 130 lbs., receding hairline; sandy hair, sallow complexion, prominent nose, slender build, married with two children, and operator and owner of Masen Sporting Goods, Harry Hines or Hymes Boulevard, Dallas, Texas.

The file on JOHN THOMAS MASEN in the Dallas Division is in a pending status and the possibility of connections on his part with "Minutemen" will be followed in that file. Once the pending ATTU prosecution against him is adjudicated, serious consideration will be given to interviewing him in this regard. Any pertinent information obtained in the course of the current investigation of him, or in the eventual interview, when and

appear to be extremely fearful that the United States is in imminent danger of a communist take-over either directly or through surrender of the United States surrendering its armed forces to the United Nations. These fears appear to be based upon information being put out by the American Eagle Publishing Company of Dallas, Texas, owned by former General EDWIN A. WALKER and based upon the State Department document "Freedom from War." All of these individuals insist that they have no intention of overthrowing the United States Government at any time, however, admit that if this organization came under the control of an unreliable person it could become a possible danger to the United States. It was noted that in recent interviews with these individuals they appeared to be somewhat relieved by the strong action taken by the present administration in Cuba and are no longer as firmly convinced that the present administration is preparing to betray this

country.	
It was admitted by and BURCHWELL that this organization at one time had considered affiliation with the "Minutemen"; however, they are no longer connected with this organization but are acting independently in the Dallas area since they were not satisfied with the leadership of

He indicated that the leadership of the NIC did not want to have anything to do with and refused to cooperate with him; however, some individuals, whose names he did not care to divulge did indicate a desire to form an organization similar to the "Minutemen."
According to most of these individuals are either members of the John Birch Society or former members of the John Birch Society who have become disgusted with merely writing letters and similar type activities, and they feel.

It would appear the above information is probably with regard to some of the same groups involved in the "Unnamed Organizations of Dallas, Texas, Patriots" and it will be considered with respect to bringing that investigation up to date as mentioned hereinbefore.

The "Dallas Times Herald," Dallas, Texas, a daily newspaper, on 9/1/63, contained an article entitled "'Wanted' Posters Put Up Calling Khrushchev Killer." It stated the long dormant "Minutemen", an anti- communist organization, or an organization using the same name, cropped

up in Dallas, Texas, on August 31, 1963, with the appearance of numerous "Wanted for Murder - Khrushchev" posters on downtown business windows. It stated the posters imitated the police and FBI wanted persons posters and described the Soviet Premier as "an extremely vicious criminal who should under no circumstances be trusted," which the article. stated was a pointed attack on the proposed nuclear ban The article stated the militant "Minutemen" group in 1961 gained national recognition when it conducted guerrilla field maneuvers near Collinsville, Illinois. The leader of that organization in 1961 was identified as ROBERT BOLIVAR DE PUGH, of Norborne, Missouri. It stated that the "Minutemen" have dropped out of sight since 1961, and said the posters taped to several downtown Dallas business windows on August 31, 1963, constituted the first indication that organization, or one using that name, had made any appearance in Dallas. The article quoted Lieutenant JACK REVILL. head of the Dallas Police Department, Infelligence Bureau, as knowing of no "Minutemen" organization in Dallas, although said. "there might be some sympathizers." A photograph of the poster appeared with the article.

Special Services Division, Dallas Police Department, on September 11, 1963, advised. posters, as described in the article in the "Dallas Times Herald" on September 1, 1963, were found on windows of several business establishments in Dallas, one being on the window of the building bousing the "Dallas Times Herald" and several being on establishments in the Wynnewood Shopping Center, Dallas. He said the posters, in addition to containing Soviet Premier KHRUSHCHEV's photograph, stated he was wanted for murder, citing vicious deeds committed by KHRUSHCHEV in the past. At the bottom of the poster appeared the word "HINUTEMEN" He said the word "MINUTEMEN" at the bottom of the poster appears possibly placed there by a rubber stamp or at least by some kind of a printing process which does not appear to. be the same printing as the remainder of the poster. Ris office has developed no information as to who distributed same. He stated his office has no knowledge there is any organization existing in the Dallas, Texas, area under the name "Minutemen". He stated he was contacted on August 31, 1963, by [

a news reporter of the "Dallas Times Herald" who inquired of him as to existence of a group in Dallas known as "Minutemen."	b2 b6 b7C b7D
On 1/4/64, reported that  Texarkana, Texas Association of Arkansas Klam of the Ku Klux Klan, had been asked by one of the Arkansas State Police for an up-to-date list of active Klan members so that these could be considered in the police auxilliary known as the "Minute Men."	b2 b7D
On 1/22/64, advised that the organization associated with the Association of Arkansas Klans of the Kurklux Klan is not affiliated with any other organization except the Klan in Arkansas even though it is known by the name of "Minutemen." stated that this group had no affilial or association with any other organization of the same name, and he stated he had never heard of the organization in Missouri.	pt tion
On 2/6/64, Intelligence Unit, Dallas Police Department, advised SA that he had no knowledge of any "Minutemen" organization in the Dallas area. He advised, however, that on October 17, 1963 two individuals were questioned in reference to a quantity of narcotics found in their possession. These individuals advised they were delivering the narcotics as a part of a medical build-up of "Minutemen" supplies. Dear Fellow American:

This letter presents to you an urgent appeal for personal financial assistance.

On October 14, 1961, in a Convention at Dallas, Texas, I was elected National Chairman of the National Indignation Convention; therefore it was my responsibility to plan, raise funds for, and coordinate the implementation of, the nation-wide opera- $\lambda$ tions of the Convention, in order to obtain the following objectives: 1.) To stop the training of Communist pilots and ground personnel at American military installa rtions, 2.) To stop the flow of American jet fighter aircraft and other military equipment to Communist countries, and 3.) To obtain a Congressional investigation in corder to determine the United States Government officials responsible for the policy which directed the training of such personnel and the shipment of such supplies, with a view to their immediate removal from office. The national operation of the Convention ceased on October 13, 1962. The results of the Convention activities were manifested in the Congressional elections of 1962.

On November 29, 1962, following a political action conference held in Dallas, Texas, I assumed the responsibility of traveling the length and breadth of our Republic in an attempt to establish at the precinct level political coordinating committees manned by politically astute American patriots regardless of their party affiliation. During the period of time between November 29, 1962 and October 31, 1963, I met with local groups one or more times in forty seven of our fifty states.

In all of this work I have never asked anyone for personal assistance: I have been generous to a fault with everything I have because I love our people, our Way if Life, and our Republic. The necessity for this appeal arises from the fact that in the execution of the above described activities I voluntarily assumed financial obligations the cumulative total of which exceeds fifty thousand dollars (\$ 50,000.00.) This money is due now or in the immediate future; therefore I need your help, now! Won't you please be generous with me? If you give, let us say, ten dollars (\$ 10.00), then raising the amount of money needed may be individually painless.

If your contribution is by check please make it payable to the Frank B. McGehee Fund, 3737 Van Ness Lane, Dallas 20, Texas. All who contribute will be notified of the success of the drive which will close when the money is raised or when it becomes apparent that it cannot be raised.

Please assume the responsibility for showing this letter to all interested persons

P. S. The outcome of the greatest struggle ever engaged in by iree men for the preservation of individual liberty and in defense of the dignity of the human person is not yet determined. Since a confessed Marxist-Communist has now assassinated the Chief Executive of our Republic we must realize that the battle for survival is not only being waged in every corner of the free world but now is being fought WITHIN the borders of the United States as well. Obviously it is not a "Cold War." phony expression. We are fighting World War III, the hottest war in which SEARCHED er have engaged and we are losing that war. Dear Fellow American:

Please have your N.I.C. people write a letter to:

Chief of Public Relations Dept. of Army Washington, D.C.

and ask that Lt. General Trudeau be allowed to speak in Dallas at our National Indignation Convention which convenes November 22nd, and send a carbon copy to:

Lt. General Trudeau Dept. of Army-Pentagon Washington, D.C.

This should be done in the name of the National Indignation Convention, or mention should be made that the writer of the letter is a supporter of the N.I.C.

General Trudeau is a dynamic speaker and has lashed out violently against certain governmental problems including the censorship of the military. They are now trying to censor him, we understand, but with enough letters we might obtain permission for him to speak. If not, other good purposes will be served by our efforts, so please write the letters.

### THE ENEMY STATUS OF COMMUNIST YUGOSLAVIA

# ALL INFORMATION CONTAINED HEREIN IS UNCLASSIFIED BY LOO 3910 DATE: 113 BY LOO 3910 ANC 3CE MLI JEYL

### Historical Facts

(1) August 19, 1946. AMERICAN -MADE P-51 Fighter planes piloted by "neutral" Yugoslav pilots shot down an unarmed American C-47 cargo plane that strayed off course enroute from Rome to Vienna. The C-47 was piloted by Capt: Richard Claeys and carried a crew of 5 airmen. Yugoslavs burned the bodies of the crewmen.

Note: In 1946, Yugoslavs were classified as "allies of U. S." This is an example of the use made of American equipment given Yugoslavia:

(2) "Our collaboration with capitalism during the war (World War II) by no means signified that we shall prolong our alliance with it. On the contrary, the capitalistic forces constitute our natural enemy despite the fact that they helped us to defeat their most dangerous representative. It may happen that we shall again decide to make use of their aid, but always with the sole aim of accelerating their final ruin." ---1946 remark of Marshall Tito, Yugoslavia's Moscow-trained dictator.

### (As printed in HUMAN EVENTS.)

- (3) November 8, 1946, Tito said: "Our present policy should be to follow a moderate line in order to gain time for the economic and industrial reconstruction of the Soviet Union and of the other states under our control. Then the moment will come when we can hurl ourselves into the battle for this final annihilation of reaction."
- (4) Tito was telling his people in the years immediately following World War II that American canned goods and other materials that we gave to Yugoslavia were being purchased by Russia from "greedy American capitalists at exorbitant prices in order to feed the starving people of Yugoslavia." Some were even relabeled with phony Russian labels.
- (5) 1948. Tito "broke" with Stalin; American aid to Yugoslavia was immediately increased.
  - (6) 1948. Yugoslavia shot down American aircraft that strayed over

and military aid from the U.S. Government.

- (7) In 1955, Tito would not permit United States military aid missions to inspect the use of military weapons which we were giving to Yugeslavia at that time.
- (8) On June 3, 1956, Tito arrived in Moscow for a state visit. He was given a lavish welcome, and made this statement: "The spirit of Lenin's principles of collective leadership are such that I am sure there never again will be misunder-standing among the nations of the Socialist Camp."
- (9) June 6, 1956, Premier Bulganin proclaimed Tito and his Yugoslav Communists as "Brothers, comrades in arms and allies in the fight for Communism." Tito replied that he shared common devotion to the ideas of Marx, Engels, and Lenin.

Note: The Communist Manifesto concocted by Marx and Engels states the following purposes:

(1) The overthrow of capitalism. (2) Abolition of private property.
(3) The elimination of the family as a social unit. (4) The abolition of all classes. (5) The overthrow of all governments. (6) The establishment of a Communist order with communal ownership of property in a classless, stateless society.

Morals and ethics - Lenin: "Morality is that which serves to destroy the old exploiting society."

Religion - Lennin: "We must combat religion. This is the ABC of all materialism and consequently Marxism."

- (10) On January 4, 1956, it was announced that the Soviets were going to build an experimental atomic reactor in Yugoslavia.
- (11) June 12, 1956, Tito: "In peace as in war, Yugoslavia must march shoulder to shoulder with the Soviet Union."
- (12) June, 1956, two former Yugoslavia officials testified before the Senate Internal Security Sub-Committee that giving aid to Tito was digging our own graves.

# = Indignation — Texas Styleal information contained MEREIN IS UNCLASSIFIED

By KENNETH INGWALSON
Assistant Publisher of HUMAN EVENTS

LET'S "Rid Texas of Reds" is the new Texas crusade which has set the Kennedy Administration back on its ear and caught national attention.

The seed of the movement was the discovery by an Air Force Reservist, Major H. C. Knickerbocker, Jr., of four Yugoslav pilots at Perrin Air Force Base in Sherman, Texas. They were being trained to operate jet planes sold by the US Government to Tito as "obsolete" for \$10,000 apiece—a small fraction of their value. They are called obsolete—but they are the same planes that the Air Force Reserve is currently using for training our fighter pilots.

Major Knickerbocker wrote his findings to Senator Tower. The letter was published by the Dallas Morning News. Reading the story, Frank McGehee, an Irish-tempered six-foot-four Texan who had worked his way up from garage mechanic to garage owner, began making telephone calls. Ten friends got together that night. They rented a hall, got a notice into the press, and 200 came out the next night. Volunteers got on the telephone and 1,200 came out the third night.

That meeting authorized a week-long "National Indignation Convention." The Dallas Memorial Auditorium was rented and the attendance for the six succeeding evenings was estimated as follows:

Sunday	1300
Monday	1700
Tuesday	2000
Wednesday	2200
Thursday	2000
Friday	1800
Saturday (closing)	3300

During the nine days following the news story which instigated the movement, 15,700 persons attended the meetings (counting the 200 and 1200 who attended the meetings that preceded the "convention").

Programs were catch-as-catch-can. Political big names were barred to prevent the meetings from becoming political rallies. Speakers were whoever was available at a moment's notice.

The thrills at the meetings were provided by the "telethons" which brought the audience into the act and provided suspense and drama which every day "had the whole town talking."

A battery of telephones was set up so the chairman from the stage could telephone anyone anywhere. A loud speaker system enabled the audience to listen in on the entire two-way conversation. Chairman McGehee would ask the audience, "Who do you want to talk to next?" The replies were instant and came from all over the convention floor: Dean Rusk, Jack Kennedy, Congressman Pogue, Senator Capehart, Governor Price Daniel, Congressman Wright, Senator Tower, Congressman Bruce Alger, Congressman Burleson, Congressman Johansen. And a dozen others.

Then the telephone operators began tracking down the personalities. Some were reached in a few minutes. Others took an hour or two. Some were reached the next night. Some could not be found. As soon as the person called was contacted, speechmaking was interrupted and the telephone interview began.

KNICKERBOCKER

BOUDREAU

McGEHEE

Each person reached was asked for his stand on the three-part action program which had been adopted by the Convention. The program called for:

- (1) Deportation of all members of the military of all Communist countries receiving training in the US.
- (2) Cancellation of all contracts with Communist countries for the sale of military equipment, current or obsolete, or material that might be converted into weapons of war; and
- (3) Determination of all State and Defense Department officials who are responsible for the sale of military equipment to Communist countries and their removal from office. (Congressman Burleson reminded the audience that Congress itself had made the authorization.) Most Congressmen reached approved the three-part program. Some liberals hedged.

The entire event was spontaneous. Performance at times was ragged and amateurish, but crystallized the feelings of the public and reflected deep sincerity and dismay. The goals sought were clear.

Following the Dallas Convention, similar meetings were set for Houston, Lubbock, and other Texas cities. Committees have been organized in a number of cities elsewhere, including Shreveport, Wichita, and Los Angeles.

A National Continuity Committee has been formed under the chairmanship of Vance Boudreau. A national convention will be held in Dallas November 22, the night before Thanksgiving. Letters, telegrams and phone calls received from many parts of the USA indicate that there will be delegates in attendance from a large number of the 50 states.

Perhaps the most remarkable fact of all about the Indignation Rallies is that all this has happened because somebody—Major Knickerbocker—WROTE A LETTER!

## 20 Million Phantom Acres Cost \$150 Million

By Congressman Paul Findley (R.-Ill.)

NOW IS THE TIME to squeeze the water out of the 1962 feed grains program or—to use another expression, eliminate the phantom acres which were so costly to taxpayers as a result of poor administration of the 1961 program. My bill, H.R. 9329, would force the Department to follow the original intent of Congress and quit wasting money on phantom acres.

FINDLEY

The US Department of Agriculture report, issued September 21, entitled "The Food Situation" and prepared by the Economic Research Service, headed by Professor Willard Cochrane, spotlights sloppy administration of the program.

On page 9, the report contains this statement: "Farmers participation in the 1961 Feed Grains Program resulted in a 15

million acre reduction in corn planting with an 11.4 million acre cut in the North Central States."

Compare this with the official report of the Secretary of Agriculture pursuant to Public Law 87-5, which is printed on Page 957 of the printed hearings on the omnibus farm bill, Serial E, Part 9, held before the Livestock and Feed Grains Subcommittee of the Committee on Agriculture, June 12-13, 1961:

"Farmers agreed to retire 20.1 million to conserving uses, representing about 23 per cent of the 1959-60 adjusted base acreage of corn."

Table 2, attached to the Secretary's [Orville Freeman's] report, showed a corn base in 1959-60 of 87,047,500 acres.

In all previous Department statistical reports,

### **Political Action Conference**

HUMAN EVENTS will hold its third Political Action Conference on Friday and Saturday, January 5 and 6, 1962, at the Sheraton Park Hotel in Washington, D. C. "What You Can Do to Help Conservatives Win in 1962" will be the theme of the Conference.

Senators and Representatives and other political authorities will speak and answer your questions. Many persons who attended the two previous Conferences have already registered. Conference fees for all sessions, including breakfast, lunch and dinner on both days, are \$75 each; \$45 for additional members of the same immediate family (wives, sons, daughters), and for students, teachers and clergymen. the 1959-60 corn base was 82,088,000. This is five million acres less. Where did the five million acres go? These are the phantom acres which resulted from sloppy administration.

In any acreage allotment or crop reduction and land retirement program, it is absolutely essential for the administrator of the program to "wring out the water" from preliminary acreages reported by farmers.

Several years ago when the wheat and cotton acreage allotments were reimposed following the Korean War, the Department of Agriculture solicited information from farmers as to how many acres they had been planting in these crops.

After receiving this information, the Department then had to make it conform to the statutory requirements, which meant actual crop reports. For example, in wheat the law established a national allotment of 60 million acres in 1954. All wheat farmers throughout the nation had to fit into the 60-million-acre suit, no matter what they said their previous production had been.

In administering the 1961 feed grains program, the Department apparently made no serious attempt to distinguish between actual history and what the history was claimed to have been.

Understandably, the new administrators in the Department of Agriculture were eager to have a big sign-up in the new program. In fact, armies of field men worked hard to see that a big sign-up resulted.

Maybe this eagerness and high pressure inflated the actual acreage basis. Whatever the reason, the results are plain. By their own admission, as documented above, Department administrators contracted for the retirement of over 20 million acres, but actually succeeded in getting a total reduction of only 15 million acres.

The estimated cost of these phantom acres is \$150 million, the price tag of sloppy administration.

This must not be allowed to happen again in next year's program, and my bill would force the Department to operate the program within the actual acreage histories as shown in official Department crop reports. My bill would force administrators to do only what capable administrators would have done in the first place.

I do not charge that 20 million acres were not retired. I have seen no reliable evidence to support such a charge. The point is that, of these 20,090,600 so-called corn acres, approximately 5 million acres are not corn acres. These are perhaps oat acres, pasture or something else, but they are being retired at a very generous rate of payment based on normal corn yield.

### — 'The Condition of the American Soul' —

By Irene Corbally Kuhn

WORD-OF-MOUTH campaign is circulating an exciting book (published on March 31st) which, unaccountably, was by-passed and unnoticed by important New York book reviewers. The seeming neglect of Princeton-educated Otis Carney's "Good Friday 1963" (Morrow) by such powerful book sales promoters as the Sunday book sections of the New York Times and the New York Herald Tribune is all the more puzzling when one reads the enthusiastic praise of discerning critics and reviewers in such cities as Seattle, Los Angeles, Minneapolis, Cleveland, Pittsburgh, Chicago, Dallas, Fort Worth and elsewhere.

As a rule, I do not review books in this column. However, the message in Mr. Carney's small novel, only 123 pages, which can be read at one sitting, cries out to be heard. It may be just the shock "treatment" we 'all need 'at this time 'of national peril.

Mr. Carney wrote the book to wake up people as he himself was awakened, "to realize we must fight the war between the material and the spiritual—slavery or freedom—as if nothing else matters. If we do not, nothing else will."

He goes back to something Theodore Roosevelt said on January 10, 1917:

"The things that will destroy America are: prosperity at any price, peace at any price, safety first instead of duty first, and love of soft living and the get-rich-quick theory of life."

If the first Roosevelt President, the man who was, above all, proudly, unrestrainedly American, saw clearly where the great peril to America's life

and future lay, it was because he understood what made America. He understood the soul and spirit of the country perhaps better than anyone else of his time.

It was almost as if he had the gift of prophecy and was telling his countrymen to beware of the false gods that follow in the train of success.

Otis Carney was not even born when the old Rough Rider spoke the words to which the young author responds, whose message he drives home 44 years later.

For Otis Carney's book might well and unhappily be a book of prophecy, so close does it come to the perilous realities of our crisis-ridden days and the horrifying possibilities of their aftermath.

On Good Friday, 1962—so begins this compelling parable of our times—Dr. Matthew Bone, cminent scientist and Chairman of the President's Defense Plans Committee, walked up the steps to the Lincoln Memorial in Washington and there, in front of the towering figure inside, took his life.

WHY DID THIS MAN with a happy family life, a distinguished career and a great future, destroy himself on the same day he returned from a trip for the President, to get a new appraisal of the US position in the world, whether we were winning or losing the war?

Before we get the answer, Otis Carney dramatically discusses foreign aid, the farm "problem," big business, big labor, religion, education, all the so-called problems confronting us today. Any number of recent headlines from the press substantiate predictions Mr. Carney made many months ago when he was writing this book.

During those months of study and work it became apparent, he said, that there was one problem underlying all the others—"that, simply, was the condition of the American soul."

While the book is a frightening look over the brink of disaster for us as a people and a nation, there is a weapon which can save us. It is the same weapon with which we forged our destiny. It is the weapon which has brought us to victory through two World Wars and countless disasters. Mr. Carney believes it is the one weapon which can make us invulnerable. He calls it the bulwark of the West, and freedom. And he names it—our Judeo-Christian tradition.

"If we live it, if every individual can be moved to act in moral responsibility, then no combine of slavery can ever defeat us. If a small percentage of us, even, would dedicate ourselves to personal truth—to be guided in our daily affairs to do what we believe is morally right, to put individual responsibility over group demands, whether we be politicians or businessmen or labor leaders—were we to do this, we would very swiftly begin changing the state of the world."

What has happened? Perhaps it's coincidence, but since taking office, President Kennedy has nominated 60 Democrats for places on the Federal bench. Only three Republicans have been named to Federal judgeships. Each wa originally by President Eisenhower. Each was nominated

The Democrats' non-partisan intentions seem to have become lost in the world of raw politics. They obviously feel the problem of untangling their own party's patronage problems is complicated enough without the alien concept of non-partisan-

The situation is not unique with Democrats. But in this case, President Kennedy is doing exactly what he said he wouldn't.

### A Wolf Story with a Moral

Some years ago while in Alaska, we were told a wolf story. Lately a similar story has appeared in print. These stories add up to the way Eskimos deal with wolf packs. Eskimos embed razor-sharp knives clasp down in the ice and apply a little seal blood. The wolves are attracted by the blood, and lick the knives, cutting their tongues. They are delighted by the seemingly inexhaustible supply of nourishing blood they can lick off the knives, and stand there licking until they drop in their tracks from loss of blood and freeze to death in the snow.

This is a clever trick, but we are in no position to jeer at the stupidity of the wolves. We Americans have been falling for a similar trick for a good many years now, and this year it may be played on us again. The variation in our case is this. In Washington and in our state capitals are a great many politicians. Many of them are poor men, a few well to do, but none of these propose to give the public any of his personal estate.

Instead they propose to give us Federal support. They will empty the Federal Treasury at our feet. Now, we should know that there is nothing in the Federal Treasury but what we have sent there by way of the tax collector. These taxes are our blood, and we cannot be nourished by it any more than those wolves can thrive on their own blood. But we have bought this kind of government. Today the Kentucky farmer is taxed to subsidize the electric bills of a plumber in Tennessee. The Tennessee plumber is taxed to subsidize the Kentucky tucky farmer. We are all being taxed to subsidize We are trying through the Federal each other. process to nourish ourselves with our own blood.

### Capital Comments

Nothing in either military or political history supports the thesis that it is safer to be weak than to be strong.

—Senator Margaret Chase Smith (R.-Maine)

I have no doubt that Red China will be admitted to the UN because it is evident that the foreign policy of the United States is again being con-trolled from the British Foreign Office in Whitehall, as it was in the days of President Roosevelt. We are once again the tail of the dog, but we do not wag the dog.

The question has been asked WHO IS Frank McGehee. The following is a brief outline of his background:

He was born December 8, 1928 in Dallas, Texas. He graduated from St. Edwards High School in Austin, Texas in 1946 and from the Dallas Aviation School in 1949. In 1950 he entered the Air Cadets and received his regular Army Commission as 2nd Lieutenant in 1951.

He spent one year in Korea, flew 100 missions in the F 84 Thunderbird. He was awarded three air medals and the Distinguished Flying Cross. It was here in Korea that he determined to come home, finish his education and equip himself to the best of his ability to help our country in any way that he could to fight this Communist menace. In 1954, he resigned his Army commission and flew for Pioneer, and then Continental Air Lines.

He then entered the University of Dallas as the first step in completing his plan to prepare himself for the fight. He graduated Magnum Cum Laude in its first graduating class. He delivered the valedictory address, and he received the medal for maintaining the highest average of any of the male students. Incidentally, he is married to the former Joanne Harrison, and they have five children.

On graduating from the University of Dallas he received a Scholarship to the S.M.U. Law School, and he is now in his second year. In order to support his family while going to school. he. Mr. Don Lanham and Mr. Jim Beyers organized the Spera Company, exercising his right under the free enterprise system to engage in his own business for the support of his family.

National Indignation Convention

Delegations and Committees

United States of America

Sunday, October 29, 1961

Dear Fellow Americans:

Since we were last in touch with most of you, we have gained a lot of ground. It is perhaps difficult for many of us to think in terms of actually winning and actually going on the offensive at last, instead of the continual defeats and appearements to which we have been forced to become accustomed. Instead of telling you about the terror of the conspiracy with which we are faced, we are informing you of the gathering strength of our movement.

Most of us across the country have been doing all we could to promote the diverse hundreds of little study groups and larger seminars which operate to educate America concerning the extent of the conspiracy, and the meaning of freedom; and, yet, the enemy of our Republic marches ever more heavily around us. Perhaps it had become difficult to even maintain hope anymore as the international picture grew steadily darker and our freedoms were being sold at home.

But the tide has changed now. Whether our patience had been pushed too far or whether we had reached the desperation point, is immaterial. The point is, that now, with the disclosure that Communist Yugoslavian pilots are being trained in our land, we have become suddenly, angrily awake. We are indeed "indignant". We, the people of the United States of America, are demanding action.

As though the spirit of Paul Revere is mustering us, we are rapidly rallying in a unified national movement. "National Indignation Convention".

Already, there have been wide spread rallies and rapid organization of grass root delegations, such as in Dallas, Midland, Lubbock, Houston, Beaumont, Newport Beach, Calif., and others, with rallies coming up in Miami, Los Angeles, Bakersfield, Long Beach, Pasadena, Omaha, Wichita, Seattle, Chicago, and other cities. There are big things happening in twenty to thirty states already, and "we've just begun to fight".

We have set up National Indignation Convention headquarters at the Baker Hotel in Dallas, rooms 620, 622, and 624, within which heavy organizational activity is under way on an emergency 15 to 18 hour a day basis. We wish to make sure you understand that we expect delegations from all over the United States to attend the National Indignation Convention which will re-convene November 22-25 at the Dallas Memorial Auditorium.

At this time we will collect the petitions you have been working on all over the United States. Also, we will make public the answers given by all of the U.S. Congressmen and Senators, and State Governors on their stand on the three main parts of our resolution. Also, we will hold advanced seminars, and engage in further national and local planning.

Our ultimate purpose, of course, is to see the fullfillment of all the parts of our resolution through our officially elected representatives in Congress when it resconvenes in Washington, January 10, 1962.

This will be a gigantic step towards victory, to be followed with other great steps later, which will save our Republic and insure our freedon under God.

Very truly yours,
NATIONAL INDIGNATION CONVENTION

Vance J. Beaudreau, Chairman National Continuity Committee.

COLMUNISTS . . ALL Communists, regardless of nationality . . . are ENEMIES OF AMERICA. Training America's enemies constitutes giving aid and comfort to them. Giving aid and comfort to America's enemies is defined in Article 3, section 3 of the CONSTITUTION as Treason! Any way you add it up, you reach the same result.

It may be said that those responsible for this act sincerely believed themselves to be acting in the best interests of America. Benedict Arnold's biography reveals that up to the moment he defected to the British, he was one of America's saunchest patriots. Furthermore, Arnold felt that by achieving a quick end of the bloodshed and awful suffering that characterized what he believed to be a lost cause, he would serve his fellow Americans best.

Benedict arnold was sincere in his belief, but he will be remembered forever, (I Hope) as the symbol of american TREASON. Modern traitors, whoever they may be, however high their offices and however sincere they may be . . . ARE STILL TRAITORS! No amount of sincerity can change that. Their acts must not be excused and they must not go unpunished.

In view of the unprecedented reprimand of a patriot of the magnitude of General Walker it seems likely that revelation of these facts will do little to further my individual progress as an Officer in the Air National Guard. It is obvious that today the multiple criminality of Communism is honored above GOD-Fearing American patriotism. Nevertheless, I for one, official Defense Department policy notwithstanding, can serve only ONE master. I remain an unreconstructed, unliberalized, UnSocialized, UNCOMMUNIZED AMERICAN!

Rest assured I will support any action you deem appropriate to rectify the treasonous situation herein described.

Very truly yours,

H. C. Knickerbocker, Jr. (Signed)

Dear Senator Tower:

As an Air National Guard Pilot, I had occasion to visit PERRIN Air Force Base, Sherman, Texas seeking some ground training equipment for our 136th Fighter Group (AD) in Dallas, equipment that will soon be declared excess to Air Force needs.

I found the equipment I sought, but I found something else far more important! COMMUNIST pilots are receiving training in the USAF FLAGI. Interceptor course at PERRIN AIR FORCE BASE!

YUGOSLAV Captains Rizman, Lukic, and Cunzaric were on the flight line along with trainees from our ally nations . . . West Germans, Free Chinese, etc., receiving briefing from American Instructors. I was told that a fourth Communist pilot is also in training, but I did not see him or talk with him during my visit.

When asked how they feel about training COMMUNIST pilots, the American instructors usually shrugged, grinned and suggested that it is not best to question such things.

German pilots in training at PERRIN are less reticent. They say, "THESE COMMUNISTS ARE THE PILOTS WE ARE GOING TO HAVE TO FIGHT."
"WHY ARE YOU TRAINING THEM ALONGSIDE YOUR ALLIES?" I couldn't give a reasonable answer to this question. Can you, Senator?

The training of YUGOSLAVS at an American Air Force Base may be glibly explained away by our State Department or Defense Department as "AID to 'Noutral' Countries" out such an explanation would be simply too much for me to swallow.

# AMERICA NEEDS YOUR HELP

TO KEEP AMERICA THE "LAND OF THE FREE AND THE HOME OF THE BRAVE"

### PLEASE

- 1. Read the facts and resolution given below.
- 2. Write to our leaders in Washington.
- 3. Show your active support of this resolution by mailing the clipping given below.

### \* FACTS:

- Eight Yugoslav Air Force Men are being trained at Perrin Air Force
  Base near Sherman, Texas. Four of these men are being well trained as pilots and four as maintenance men.
- 2. The Pentagon has stated that three Yugoslavs also will receive training at Lowry Air Force Base in Colorado.
- The U.S. has sold approximately 135 F86 D Sabrejet Fighters to Tito since January 15, 1961. Some of these planes have already been delivered to Yugoslavia.
- Deliveries are still being made of 70 Navy TV 2 aircraft sold to Yugo-
- Since 1949, the U.S. has supplied a total of \$2.28 billion in loan and grants in aid to Yugoslavia, not counting outright sales of military equipment. Of that total, \$1.59 billion has been described an economic aid and \$69 million as military aid.
- In the recent Belgrade Conference Tito gave his support to Soviet policy. Yugoslavia has given steady support to the Soviet's East Germany policy concerning West Berlin.

Shall we continue to an apathy that will be fatal? This is an unpleasant question, but as we think of the decisions our nation must make in these next few months, let alone the next 16 years, we know the only thing that can save us is a rebirth of faith in the Divine meaning and significance of life, and above all a truly Christian character with hope and stamina and love in enough people to discover and fulfill our personal,

Mr. Blough, Chairman of U. S. Steel, has sometraditional American stard left in him. Mr. Blough wrote back to the Presiden pointing out a few cogenifacts.

1) From 1940 thru 1960. steel prices rose 174% Employment costs rose22%.

2) Fifteen billion Mars were invested in morefficient plant and equinent (paid for by the stockhders) yet productivity rosonly 40% while employment sts rose those 322%.

3) Steel profits per (ar of sales dropped froisog in 1940 to 5.7% in 50. There were lots mojut So what?

The point of all this is that the President is trying to buy labor's votes at the expense of free enterprise. He wants to keep the price of steel down. So does everybody else including the steel companies. But the only way to keep steel prices down is to keep down the costs of making steel and selling it. But the President says nothing about the costs.

This whole thing ties up nicely. Let labor increase its costs. The government steps in to keep the prices down by misinforming the public. Eventually price controls are instituted based upon the misinformation which has been fed to the public. Squeeze private enterprise out, take over the steel industry, take over other industries the same way, and down the drain with American freedom.

American industry is far from lily white. But the American way is to let business and labor fight their own battles. Let enterprise succeed and failure fail and try again. Now enterprise is penalized and failure subsidized. That cannot long endure.

## Dear Friends... Lance Webb

Time is Running Out

Some historian with insight has said that the average age of the world's great civilizations has been 200 years. These nations progressed through this sequence:

- \* From Bondage to Spiritual Faith
- \* From Spiritual Faith to Great Courage
- \* From Courage to Liberty
- \* From Liberty to Abundance
- \* From Abundance to Selfishness
- \* From Selfishness to Complacency
- \* From Complacency to Apathy
- \* From Apathy to Dependency

"In sixteen years our United States will be 200 years old, This cycle is not inevitable!"

No, this cycle is not inevitable, It did not occur in Great Britain which has lasted much more than 200 years, Why? Mosthistorians would say that the Methodist Awakening in the 18th Century as much as any other one influence provided the spirit and character that kept Britain great.

It need not happen in America by the end of our first 200 years; but surely we are a long way down the line-from abundance to selfishness to complemental family and national purpose under God.

We must be as committed to the Lord of Heaven and Earth as the Communist is to his false gods. This calls for sacrificial living and giving. "Business and church as usual" is out. No half-hearted lip service to Christ will do. We will be on fire with a passionate loving service that can never be overwhelmed by evil—be it communistic or materialistic or any other kind—but overwhelms evil with Goodly

As I think of these things I have three immediate concerns for you, dear friends.

If communists need and are required, no matter how long they have been communists, to meet together for discussion on study and what for them is the worship of their false gods, surely we as Christians cannot do less. I believe most of you are sincere, but I want to ask you candidly, "How can any of us expect to have a spiritual basis for our lives if we neglect these basic disciplines?" They are not optional, if we feel like taking them; they are prime requisites for any kind of courageous, effective living in these days.

You don't have time? When you have given as much time to worship and study and discussion as any committed communist does, you may

ator carries around with him. So, on this point alone, I humbly suggest that Dr. Gallup take another look at his abacus and see if it isn't out of kilter.

Even less am I impressed with the good doctor's estimates of the President's popularity, to which he says the voters of both major parties subscribe. His figures say 76% of us approve of the way Mr. Kennedy has performed, 12% disapprove and 12% have no opinion at all. And, in a footnote, the learned savant indicates that the President's prestige rose five points after the Cuban fiasco to an all-time high of 83%.

Borrowing a phrase from the monosyllabic General McAuliffe, I have to say, "Nuts!" The notion that those of us who voted for Nixon in one of the closest races in history are now so delighted with the Kennedy record that we would sweep IFK into office if therewere an election tomorrow-and that's what the Gallup figures imply if they mean anythingis sheer hogwash. On the contrary, the only Republican I can think of who wouldn't beat the incumbent is Harold Stassen.

All over the land I hear rumbles from disappointed Democrats—and I don't mean the ADA boys. I mean men who honestly believed that they would see the restoration of American prestige Mr. Kennedy promised them and are unhappy with what has come about. Indeed, in his heart of hearts, I doubt that even Mr. Kennedy-can.

Split frankfurters lengthwise, cutting only about 3/4 the way through. Place in a shallow baking dish. Spread cut surfaces generously with cheese food. Bake in moderate oven at 350 degrees for about 12 minutes or until cheese softens. Sprinkle French fried onions generously over top and return to oven for about 2 minutes to

popular with everyone.
"Franks" are cooked, just need heating to make them taste just right, so the time in the oven for this casserole is short.

A sparkling tag-along for cheesefurters is a huge pitcher of iced tea.

Here's the best way to make iced tea. Rinse the tea pot with boiling water. For 8 glasses of iced tea, measure 4 tablespoons (12 teaspoons) of tea into the pot, or use 12 tea bags. Pour 3 cups of fresh, vigorously boiling water over the leaves. Replace the pot cover. Let stand 5 minutes to bring out full flavor. Stir tea briefly.

Pour the brew off tea leaves immediately. Strain through tea strainer into glass, earthenware or enamelware pitcher. Add 3. cups cold water to the hot

filled glasses. Serve with slices of lemon,

No matter how carefully you brew your tea, it may be cloudy. This is more likely to happen if you make a strong brew. To clear cloudy iced tea, add a small amount of boiling water. Mother in a hurry? Use Instant Tea...just add a rounded teaspoon of Instant Tea to a glass of cold water. Add ice, lemon, etc.

## RED STAR OVER TEXAS

On September 17, 1961, Harry C. Knickerbocker, Jr., a Dallas businessman and a Major in the Air National Guard, wrote to Senator John Tower (Republican, Texas) saying:

"As an Air National Guard pilot I had occasion to visit Perrin Air Force Base, Sherman, Texas, seeking some ground training equipment for our 136th Fighter Group (AD) in

"I found the equipment, . . . but I found something else far more important. Commu-Dallas.... nist pilots are receiving training in the USAF F-86L interceptor course at Perrin Air Force Base!

"Yugoslav Captains Rizmal, Lukic, and Cunzaric were on the flight line along with trainees from our ally nations — West Germans, Free Chinese, etc. receiving briefing from American instructors. I was told that a fourth communist pilot is also in training, but I did not see him during my visit.

"When asked how they feel about training communist pilots, American instructors usually shrugged, grinned, and suggested that it's best not to question such things.

"German pilots in training at Perrin are less reticent. They say, 'These communists are the pilots we are going to have to fight! Why are you training them alongside your allies?' ...

"Yugoslavs in training at an American Air Force Base may be glibly explained away by the State Department or Defense Department as aid to a neutral country, but such an explanation is simply too much for me to swallow.

"Communists — all communists, regardless of nationality — are enemies of America. Training America's enemies constitutes giving aid and comfort to them. Giving aid and comfort to America's enemies is defined in Article 3, Section 3 of the Constitution as TREASON! Any way you add it up, you reach the same result.

"It may be said that those responsible for this act sincerely believed themselves to be acting in the best interests of America....

"Benedict Arnold was sincere in his belief, but he will be remembered forever (I hope) as the symbol of American treason. Modern traitors, whoever they may be, however high their offices, and however sincere they may be, are still traitors! No amount of sincerity can change that. Their acts must not be excused, and they must not go unpunished.

"In view of the unprecedented reprimand of a patriot of the magnitude of General Walker, it seems likely that revelation of these facts will do little to further my progress as an officer in the Air National Guard. It's obvious that today the multiple criminality of communism is honored above God-fearing American patriotism. Nevertheless, I, for one (official-Defense-Department policy notwithstanding) can serve only one master. I remain an unreconstructed, unLiberalized, unSocialized, unCommunized American."

Senator Tower subsequently released a statement saying it appears that, while we are training pilots for communist Yugoslavia, Yugoslavia is training pilots for communist Cuba.

In a statement to me, Major Knickerbocker said:

"Most Air Force officers with whom I have discussed this situation simply shrug and say, 'So, what's new? We've been training Yugo-slay Communists since 1954. The implication is that, since it has been going on for some time, treason has become respectable, acceptable, and legitimate.

"This seems to be an important part of communist technique: flood our nation with such a multitude of criminal situations, that many thrive for quite a while before being discovered. By the time they are discovered these criminal situations are firmly ensconced in an aura of respectability as long-time inhabitants of the community.

"We have been supplying equipment to communist Yugoslavia for many years. How well I remember meeting flying-school classmates of mine at various Air Force bases — pilots who were ferrying new T-33 jet train-

DEMANDO GOTTALVIORILLE

ers and new F.84 Jet fighters to Yugoslavia. At the time, Twas flying one of the ten-year-old F-80's assigned to my Air National Guard squadron.

"No one listened to my shouts of alarm then, in 1957. Perhaps no one will listen—or more important, take action—in 1961. But that doesn't change a thing for me. Treason is treason, whether it happened 5 minutes ago or 50 years ago.

"My shouts of alarm will continue until I'm silenced or the responsible traitors smoked out and punished."

Knickerbocker also revealed that the Yugoslav pilots first arrived at Perrin, wearing Russian-made uniforms, including the red star on their hats — but were 'persuaded' to wear, while here, United States uniforms and the USAF insignia.

On October 13, 1961, both metropolitan newspapers in Dallas gave front-page headlines to Major Knickerbocker's story about communists being trained at Perrin Air Force Base; and the community of Dallas exploded with indignation.

Frank B. McGehee, a Dallas garage owner, joined a small group of others to express their outrage by picketing Perrin Air Force Base Friday afternoon. On Saturday (October 14) Mr. McGehee rented the Dallas Civic Auditorium for a protest rally and started a telephone campaign to get an audience. That night, approximately 800 people attended. Feeling was so high, that McGehee (and others who had joined him) resolved to convert this one-night rally into a National Indignation Convention and keep it going as long as possible, or until they had accomplished their objective of stopping American aid to Yugoslavia and causing the removal from office of State and Defense Department officials responsible for the 'treasonous situation.'

Sunday night, the crowd attending the indignation meeting was double the size of the first night — and even angrier. By Monday night, October 16, the third meeting of the Indignation Convention, the cavernous Dallas

Civic Auditorium was almost full; and the people attending were from all over the state.

High administration officials in Washington were being quoted as promising a "searching, microscopic look" at any future military and economic aid deals with Yugoslavia.

Former President Eisenhower was being quoted as supporting the whole program of "selling" the "surplus" aircraft to Yugoslavia; but by October 17, public indignation (about the 'sale' of military planes to Yugoslavia and the training of communist pilots in the United States) was so hot and so widespread, that Eisenhower was being quoted as saying he had nothing to do with the deal, that the whole thing was arranged by the Kennedy administration!

Defense Department officials were trying to cool public anger by claiming that the aircraft which we are "selling" to Yugoslavia is really obsolete anyway. Major Knickerbocker answered this point by posing the question:

"If it's obsolete, why are they giving it to us (the Air National Guard) to fly?"

Although I heartily welcomed the spectacle, I was probably more amazed than anyone else at the sudden burst of public anger and indignation that overflowed in Dallas and spread like fire across the nation. The presence of four Yugoslav communist pilots, receiving training on an American Air Force Base at American tax-payers' expense seemed, to me, a very minor bit of treason, when placed against a backdrop of our dealings with Yugoslavia since World War II.

Since the subject is presently a matter of such burning public interest, perhaps a brief chronological review of the facts is in order.

### The Beginning

In World War II, when the people of Yugoslavia revolted against an alliance with Germany, Hitler invaded the country. A gov-

ernment-in-exile was set up in London; but General Mikhailovitch, a Serbian patriot, stayed behind and took to the hills to organize a resistance movement.

After Hitler attacked Russia and nazi power began to wane in Yugoslavia, the communists sent Tito (a Croatian) back into Yugoslavia, ostensibly to join Mikhailovitch and help him fight the nazis.

Mikhailovitch, understanding and hating communism as well as nazism, knew that he could not unite with the communists without ultimately succumbing to them. He would have no part of Tito. Consequently, a communist propaganda campaign against Mikhailovitch blazed up all over the world, flaming with particular ferocity in America.

Hence, the American government deserted Mikhailovitch — withholding arms and aid from him and giving them to Tito. Mikhailovitch was thus destroyed. The Yugoslavian government in exile was repudiated, and Yugoslavia was delivered into the hands of the communists.

American aid in vast quantities went to Tito with no strings attached — Tito using it to destroy his enemies, solidify his dictatorship, and fasten communism on the nation.

American goods were relabeled and delivered to the people as coming from Mother Russia. American canned foodstuffs, and other material that could not be relabeled, were distributed with the explanation that Russia was buying it from greedy American capitalists at exorbitant prices in order to feed the starving people of Yugoslavia.

### 1948

The communists were doing all right with our money, but decided to get more of it. In 1948, Tito and Stalin rigged the obviously false break between the Soviet Union and Yugoslavia. The purpose was to get direct American aid to build a communist arsenal in the Bosnian mountains of Yugoslavia, which

are open and accessible from the east, practically impregnable from the west.

The scheme worked. Our 'liberals' started urging all-out aid to Yugoslavia, saying that we would thus encourage other communist states to split with Moscow. It was about this time that Tito temporarily complicated the problem for our liberals: he shot down American military aircraft which had strayed over Yugoslav territory; but while still boasting about what he had done, he demanded and got direct economic and military aid from the United States government.

Our aid to Tito has never stopped flowing, although the dictator has insulted us, and supported the Soviet Union, on practically every pertinent occasion since our aid began — as the record shows.

### 1955

In 1955, our aid-to-Yugoslavia program encountered a little trouble in Congress when it became known that Tito would not permit United States Military Aid Missions to inspect the use of military weapons which we were giving Yugoslavia. A few Congressmen demanded that we stop all Yugoslav aid, economic and military. The Eisenhower Administration got its aid bill passed that year by promising that the situation would be rectified.

On September 15, 1955, the State Department announced that Deputy Undersecretary Robert Murphy (then called the Department's "top trouble shooter") would go to Yugoslavia and discuss the "aid problems" with Tito, particularly Tito's demand for an additional 40 million dollars.

Three days later — September 18 — the Kremlin announced that A. I. Mikoyan, first deputy prime minister of the U.S.S.R. was on his way, with his family, to spend a vacation with Tito in Yugoslavia.

The leftwing press of America broke out with a rash of articles about the efforts of the Kremlin to "woo Tito" away from us and about how frightfully important it was to avoid any action, such as terminating or reducing aid or making demands about inspection, which would "drive Tito into the Soviet camp."

By the time Murphy got to Yugoslavia, he "had the American nation behind him" in his assurances to Tito that we would continue our aid to him. Tito assured Murphy that he was not really trying to get in bed with the Soviets: that he wanted only a "normalization of ties" with the U.S.S.R. This news was reported in the New York Times on September 29, 1955; and the American nation, presumably, rejoiced in the knowledge that the communist dictator of Yugoslavia would continue to accept our help.

During October, 1955, there was again some speculation among American liberals about the possibility of a "dangerous rapprochement" between Tito and the Kremlin.

So, in November, 1955, our Secretary of State, John Foster Dulles, visited Belgrade. Tito welcomed Dulles with great affability and assured him that Yugoslavia would not only continue to accept American military and economic aid but would now also be willing to get atomic energy information from us. This good news can be found in the New York Times of November 5, 1955, and in the Chicago Tribune of November 7 and 8.

### 1956

During 1956, our aid-to-Yugoslavia program was complicated by several spectacular events.

On January 4, 1956, it was announced that the Soviets were going to build an experimental atomic reactor in Yugoslavia. Articles in the *New York Times* on February 13 and

18, 1956, are typical of many which smoothed this situation temporarily: the articles explained that Tito was not really aligning himself with Moscow; the Kremlin had simply made him a better offer concerning atomic energy development than we had made; we ought to quit beating communists over the head as bad people, and should 'compete' with them in helping less-developed nations; and so on.

But on June 3, 1956, Tito arrived in Moscow for a state visit and was given a lavish welcome. On June 3, Tito said:

"The spirit of Lenin's principles of collective leadership are such that I am sure there never again will be misunderstanding among the nations of the socialist camp."

On June 6, 1956, Premier Bulganin of the U.S.S.R. publicly acclaimed Tito and his Yugoslav communists as:

"Brothers, comrades in arms, and allies in the fight for communism."

Tito replied that he shared with the Soviets a "common devotion to the ideas of Marx, Engels, and Lenin"; and he praised Soviet foreign policy.

On June 12, 1956, Tito at Stalingrad said:

"In peace as in war, Yugoslavia must march shoulder to shoulder with the Soviet Union."

On June 21, 1956, Marshal Zhukov assured Tito that the Soviet Union will fight "shoulder to shoulder" with Yugoslavia in the event of war.

During June, 1956, two former officials of the Yugoslav government (then living in the United States) testified before the Senate Internal Security subcommittee, saying pointedly that in giving aid to Tito, the United States is digging its own grave.

Toward the end of June, our aid-to-Yugoslavia program was in real trouble with the Congress. But on June 27, 1956, John Foster Dulles issued a statement solemnly warning the nation that if we did not continue aid to Yugoslavia, we would "drive Yugoslavia back into the camp of the Russians."

On July 26, 1956, the Congress passed the foreign aid bill, prohibiting future military aid to Yugoslavia, but not terminating the aid already "in the pipeline" — which meant that hundreds of millions of dollars in aid would continue going to Tito for many months. Among the "pipeline" material not terminated were 300 jet aircraft.

Things settled down for a couple of months—until September 20, 1956, when Khrushchev visited Tito in Belgrade. One week later, Tito made another visit to Moscow.

It required millions of words in the liberal press of America to explain that these visits did not really mean anything and that our aid to Tito was really keeping him "out of the communist camp."

The liberal propaganda did a rather good job, because, in October, 1956, President Eisenhower announced that he was resuming economic aid to Yugoslavia, because Tito had clearly demonstrated his friendship for the west.

The next month, however — November, 1956 — when all decent people on earth were sick with horror over the Soviet rape of Hungary, Tito sided with the Soviets, publicly branding the Hungarian patriots as "bandits" for rebelling against their communist masters.

The next month — December, 1956 — President Eisenhower invited Tito to visit the United States as an honored guest of our nation. Congress expressed such indignation that Tito would not come — and Eisenhower did not insist, lest the visit endanger the foreign aid program, which had to be fought through Congress again in 1957.

### 1957

Limitations of space require mention of only a few highlights from 1957.

On May 9, 1957, President Eisenhower said he was also resuming *military* aid to Tito (including the immediate delivery of 200 jet planes), because Tito had unmistakably veered away from the Soviets and had shown himself a friend of America.

On May 27, 1957, Tito publicly answered, virtually calling our President a liar. Tito, in a statement at Belgrade, said he wanted the world to understand that he had no quarrel with the Soviet Union — and he specifically wanted America to understand that Yugoslavia and the Soviet Union have the same objective: building a world communist system.

Two days later, an American newspaper correspondent, breaking away from a guided tour in a Yugoslav Adriatic seaport town, found workmen scratching out the words "USA" on wooden crates and marking the crates for reshipment to Hong Kong. The crates contained critically important machine tools which we were giving to Tito and which he was shipping to red China.

By the middle of May, 1957, Congress was again balking about authorizing more aid to Tito. On May 15, 1957, the State Department, in a press release, assured Congress and the nation that our aid to Yugoslavia was essential to our own national interests because it was helping Tito "withstand Soviet pressure."

Tito must have a sardonic sense of humor, because, one-week later—on-May-22, .1957—he announced that his friendship with Moscow was growing warmer all the time.

On July 14, 1957, Tito, with a fanfare of publicity, announced that a Yugoslav economic delegation was going to Moscow to seek "reinstatement" of a 250 million dollar aid promise which the Soviets had previously made, but had not kept.

On July 25, 1957, Washington officialdom announced a special 15 million dollar "loan" for the development of Yugoslav copper mines.

On August 4, 1957, Tito visited with Khrushchev in Rumania, promising full cooperation, in all ways, with the Soviets.

On August 15, 1957, President Eisenhower said our aid had "broken Tito away from Moscow."

On September 17, 1957, Tito publicly announced full support for Soviet foreign policy.

On December 9, 1957, Tito announced that he would accept no further military aid from the United States. On December 23, 1957, United States officials were in Belgrade, pleading with Tito to continue acceptance of our military aid.

### 1958

The Soviet-Yugoslav propaganda organ played a different tune in 1958. Throughout the year, there were stories about "Tito blasting" the Kremlin or red China, and being "blasted" in turn. Every blast eased the flow of American aid, of course; but that was not the real purpose of the drama.

World communism was preparing a new role for Tito and was preparing the world to accept him in that role: that is, the role of leader among the "neutral" or "unaligned" nations.

Tito openly stepped upon the world stage in this new role for world communism just before Christmas, 1958, when he set out on a tour of the "neutral" nations of Asia and Africa. The importance—to the international communist conspiracy—of Tito in this new role as a "neutralist" did not become apparent to the non-communist world until almost two years later.

### 1959-60

Yugoslav-American relations were relatively unspectacular during 1959 and 1960.

We provided twenty-two and a half million dollars to build Tito a nitrogen fertilizer factory (which can quickly be converted into a munitions plant) in January, 1959; we lent him 5 million to improve his railroad system in February; and so on. Throughout 1960, Tito alternated from month to month between supporting the Soviets on some important issue, and getting fresh loans and gifts and promises from America; and he continued efforts to establish his leadership among "neutralist" nations.

### 1961

In June, 1961, a new Yugoslav law went into effect, virtually outlawing United States information agency activities in Yugoslavia; but apart from this, the events of 1961 were more of the old routine — until September.

On August 31, 1961, the Soviet Union abruptly announced that it would resume the testing of nuclear weapons. The New York Times, and the American liberal press generally, published headlines saying that this move angered the leaders of 24 'neutral' nations gathering in Belgrade, Yugoslavia, for a conference.

On September 1, 1961, the Belgrade conference of neutrals began; and the conference leaders uniformly condemned, not the Soviet Union-for-resuming-nuclear-testing, but-the United States for causing it!

Every one of the neutral nations at the Belgrade conference, which condemned America because the Soviet Union resumed nuclear testing, has received substantial amounts of aid from the American government, little or nothing from the Soviet Union. Generally, the leaders of nations which have received the most aid from the United States were the ones most critical of the United States.

Here are the 24 nations which attended the 'neutral' conference at Belgrade, Yugoslavia, September 1-6, 1961, and the amount of aid

each had received from us as of March 31, 1961:

Yugoslavia2 billion, 81	million	dollars
India 1 billion, 906		
Indonesia479		
United Arab Republic346	million	dollars
Cambodia257		dollars
Morocco168	million	dollars
Tunisia142	million	dollars
Afghanistan116	million	dollars
Lebanon83	million	dollars
Ethiopia79	million	dollars
Burma73	million	dollars
Iraq69	million	dollars
Ceylon63		dollars
Cuba54	million	dollars
Sudan31	million	dollars
Nepal27	million	dollars
Saudi Arabia27	million	dollars
Congo Republic19	million	dollars
Yemen10	million	dollars
Cyprus7	million	dollars
Somali Republic7	million	dollars
Ghana5		
Guinea2	million	dollars
Mali	million	dollars
•		

Grand total: 6 billion 51 1/2 million dollars.

Note that Yugoslavia has received the most aid from us. Tito of Yugoslavia made the strongest criticism of us. On September 3, 1961, Tito said to the conference of neutral nations at Belgrade:

"The Soviet Government has published a statement on the resumption of nuclear weapons tests. All this has alarmed the whole world....

"We are not surprised so much by the communique on the resumption of atomic and hydrogen weapons tests, because we could understand the reasons adduced by the Government of the U.S.S.R."

Tito explained that the fault lay with those nations which "continue to make a fetish out of control" — the United States, that is

— thus revealing "unwillingness or hesitation to undertake real disarmament."

Tito condemned France for making atomic tests, and condemned "other Western powers" for not making France stop. He condemned American policy with regard to Germany, as being responsible for all the tensions there, and supported the Soviet viewpoint. He denounced America's "aggressive intervention" in the affairs of communist Cuba. He praised communist leaders in the Congo and demanded a seat for red China in the United Nations.

The American press reported that Washington officials were surprised at the attitude of the neutral nations; and State Department spokesmen began "explaining" the attitude. They said it was quite understandable (and, by inference, welcome) that "neutral" nations, which have received much from us while receiving nothing from the Soviets, would blame us for Soviet behavior: the neutral nations, knowing that we are a benign power, are not afraid to offend us, but are afraid of the Soviets!

The little ripple of anger (which had spread through America, as a result of the behavior of Tito and his "neutral" nations at Belgrade) had almost subsided when — on October 13, 1961 — Major Harry Knickerbocker's letter

about four Yugoslav communist pilots in training at Perrin Air Force Base, hit front pages of American newspapers.

### Hope

The great wave of indignation and anger, which this relatively unimportant condition started, gives me hope that Americans have not lost their sense of outrage.

The chain of events, which began explosively in Dallas in the middle of October, 1961, gives me hope that the American people will rise up before it is too late and demand — not just the removal of 4 communist pilots from Perrin Air Force Base — but a total reversal of the disastrous policies which our federal government has been pursuing (and paying for with our money) ever since Franklin D. Roosevelt was inaugurated in March, 1933.

### **Explanation**

We had promised, for this week, to publish a percentage rating, of all members of the national Congress, based on their actual votes on 49 roll-calls which have been published in this *Report* this year. That was postponed, because of current interest in the Yugoslavian matter.

### WHO IS DAN SMOOT?

Dan Smoot was born in Missouri. Reared in Texas, he attended SMU in Dallas, taking BA and MA degrees from that university in 1938 and 1940.

In 1941, he joined the faculty at Harvard as a Teaching Fellow in English, doing graduate work for the degree of Doctor of Philosophy in the field of American Civilization.

In 1942, he took leave of absence from Harvard in order to join the FBI. At the close of the war, he stayed in the FBI, rather than return to Harvard.

He served as an FBI Agent in all parts of the nation, handling all kinds of assignments. But for three and a half years, he worked exclusively on communist investigations in the industrial midwest. For two years following that, he was on FBI headquarters staff in Washington, as an Administrative Assistant to J. Edgar Hoover.

After nine and a half years in the FBI, Smoot resigned to help start the Facts Forum movement in Dallas. As the radio and television commentator for Facts Forum, Smoot, for almost four years spoke to a national audience giving both sides of great controversial issues.

In July, 1955, he resigned and started his own independent program, in order to give only one side — the side that uses fundamental American principles as a yardstick for measuring all important issues.

If you believe that Dan Smoot is providing effective tools for those who want to think and talk and write on the side of freedom, you can help immensely by subscribing, and encouraging others to subscribe, to *The Dan Smoot Report*.
